Internal Audit Objectives and Responsibilities

The primary objective of Internal Audit is to review, appraise and report upon the adequacy of internal control systems operating throughout the council, and to achieve this will adopt a predominantly systems-based approach to audit.

The council's internal control system comprises the whole network of systems established within the council to provide reasonable assurance that the council's objectives will be achieved, with reference to:

- The effectiveness of operations
- The economic and efficient use of resources
- Compliance with applicable policies, procedures, laws and regulations
- The safeguarding of assets and interests from losses of all kinds, including those arising from fraud, irregularity and corruption
- The integrity and reliability of information, accounts and data

Accordingly, in the conduct of planned audits Internal Audit may:

- Carry out a selective assessment of compliance with relevant procedures and controls expected to be in operation during the financial year in order to be able to complete the Annual Internal Audit Report 2019/20 of the Annual Governance and Accountability Return (AGAR)
- Review the reliability and integrity of financial information and the means used to identify, measure, classify and report such information
- Review the means of safeguarding assets and, as appropriate, verify the existence of such assets
- Appraise the economy and efficiency with which resources are employed, identify opportunities to improve performance and recommend solutions to problems
- Review the established systems to ensure compliance with those policies, procedures, laws and regulations which could have a significant impact on operations, and determine whether the council complies
- Review the operations and activities to ascertain whether results are consistent with objectives and whether they are being carried out as planned
