

**BRADFIELD ST GEORGE PARISH COUNCIL
GDPR STATEMENT**

The General Data Protection Regulation (GDPR) is a new regulation which has been incorporated into the Data Protection Act (DPA) 2018.

It strengthens the previous Data Protection Act 1998 (DPA) and gives individuals more rights and protections. It sets out the requirements for how all organisations handle personal data and came into effect as of 25th May 2018.

The GDPR applies to personal data which covers any information relating to an identifiable person who can be directly or indirectly identified in particular by reference to an identifier.

The GDPR requires personal data to be processed in a manner that ensures its security. This must include protection against unauthorised or unlawful processing and against accidental loss, destruction or damage.

The GDPR requires organisations to have a valid basis in order to process personal data. There are six lawful bases for processing data and the Parish Council will ensure that it uses the basis the most appropriate when processing such data.

Lawful Basis for Processing Data:

- Consent
- Contract
- Legal Obligation
- Vital Interests
- Public Task
- Legitimate Interests

For more details on the lawful basis used by Bradfield St George Parish Council for processing personal data please click [here](#).

The GDPR creates some new rights for individuals and strengthens some of the rights that previously existed under the DPA as follows:

- The right to be informed
- The right of access
- The right to rectification
- The right to erasure

- The right to restrict processing
- The right to data portability
- The right to object
- Rights in relation to automated decision making and profiling.

Individuals have the right to be informed about the collection and use of their personal data. This is a key transparency requirement under the GDPR. Further details on the Parish Council's purposes for processing data and with whom it will be shared are contained within Bradfield St George PC's [privacy notice](#)

For a copy of the retention periods for all data, including personal data, Bradfield St George PC's Data and Document Retention Policy can be seen [Here](#)

The GDPR introduces the 'right of access' for individuals and from 25 May, data subjects will have the right to request:

- the reasons why their data is being processed;
- the description of the personal data concerning them;
- anyone who has received or will receive their personal data; and
- details of the origin of their data if it was not collected from them.

A Subject Access Request (SAR) is a request for personal information that the Parish Council may hold about an individual. If an individual wishes to exercise their subject access right, the request must be made in writing. The purpose of a SAR is to make individuals aware of and allow them to verify the lawfulness of processing of their personal data. Under the GDPR and the current Protection Act (DPA), individuals have the right to obtain confirmation as to whether personal data is being processed.
